Sr. No	Particulars
Name of ILMS Software	CodeAchi LMS
Nature of automation (Fully or partially)	PARTIALLY
□ Version	8.4
Year of Automation	2023

1. Introduction

Technology is ever changing, what you see today as an advanced technology that may get backdated within very short period of time. Especially, after the evolution of the computer science and information technology, things are getting advanced very fast and as an organization we must adopt the right technology to stay ahead of our competitors or else we may lose our reputation very quickly. We have taken the responsibility to make our clients stay ahead with technology so they get the best response from their users. We welcome and request you to read this user manual very carefully in order to understand the software and the technological advancement your Library will get after using this software.

1.2 CodeAchi LMS Basics

CodeAchi Library Management System (LMS) also known as CodeAchi Library is a software solution to manage your library with ease. This software is designed to ensure you can use this software with or without having degree or knowledge in Library Management science. This software have both offline and online module to ensure you get both the facility depending on your requirements. As a librarian or management you need to have a tool that will help you understand your library better. Our software ensure you get all the information of your library whenever you need starting from inventory, usage, and damage of your items beside all borrower and librarian related data.
